## We have decided to **START OVER!!!** **September 2018**

**(All previous candidates must complete the new enrollment form, but earlier auditions and acceptances will be honored.)**

People know that Dr. Lubben has created four operating (successful) art schools in the Lehigh Valley: One High School (2003), One Middle School (2011), and Two Elementary Schools (2013 and 2017). Each school have well over 350 students and a waiting list for many grade levels or artistic disciplines. Google any of their websites!
